Hit the Court Running

Out of the box, BL Scorebug for basketball can be up and running in 10 minutes. With an easy to use interface, your operators will be confident doing a live broadcast in no time. Quickly add any teams including NBA and NCAA leagues.

From Center Court

Drive scoring manually using quick increment power keys or connect to Whiteway, Daktronics and OES scoreboard controllers for automated score updates.

Leave Your CG Benched

With extensive broadcast quality layouts including pregame, locator, host keys, lineups, player keys, stats, standings, credits, coming-ups and a generic template for anything else you could possibly need for your game titling. BL Scorebug for basketball also supports a station bug for branding or sponsor logo bug for realizing ad revenue.

Ask about BL Soft turnkey systems for this solution.

Scorebug for MVP

Supporting SD and HD, Scorebug also supports switching broadcast layout graphic templates for special broadcasts. Easy to use and powerful, you will want BL Scorebug on your roster this season.

Scorebug Lite

A completely portable broadcast Scorebug solution to fit your budget.

Hit A Home Run With Your Broadcast
 Out of the box, BL Scorebug for baseball can be up and running in 10 minutes. With an easy to use interface, your operators will be confident doing a live broadcast in no time. Quickly add many teams including the MLB league.

Triple Play For Your Operators

With so much going on during a baseball game, your operators need every advantage they can get to keep the broadcast output current with the game. Scorebug for baseball gives operators quick keys for continuously used plays such as advance batter, advance all runners, clear bases and home run. Combined with quick keys for on/off status of bug, radar gun speed and batter status, your operators will have no trouble keeping up with the action.

Leave Your CG Benched

With extensive layouts including pregame, roster, stats, host keys, locator, officials, coming-ups, standings and a generic template for anything else you could possibly need for your game titling. BL Scorebug for baseball also supports a station bug for branding or sponsor logo bug for realizing ad revenue.
